

DR STINGER

Dedicated Reamer Stinger

Technical Specifications

Tool Size (ID)	1 1/2" - 3 3/4" *
Tool Size (OD)	4 3/4" - 14 3/4" **
DNR Length	8' - 10'
Stinger Length	7'
DNR Weight	350 - 550 lbs.
Stinger Weight	350 - 600 lbs.
Connections	Any
Max Pull	Thread Dependent

* Tools can be customized for each application

** Tools supplied in 1/16" increment ranges

SUPERIOR

DRILLING PRODUCTS

Primary Advantages

- Much faster dedicated reamer run
- Cost effective (no bit - no bit loss/damage, eliminates bit cost on run)
- Better indication of hole conditions
- Opposing eccentric reamers with pdc cutters force each other into the formation
- Progressive blades incrementally shear the formation
- Diamond domes protect the pipe and pdc cutters when rotating in casing
- Profile relief entices formation into pdc cutters maximizing its cutting efficiency

DR STINGER

Bi-Directional Reaming

Enlarge Bore Hole Drift

Improve Well Bore Quality

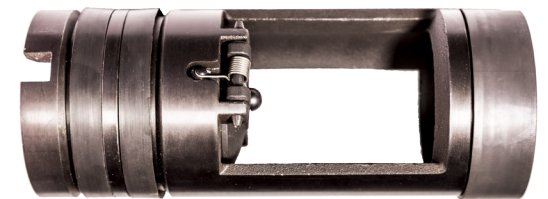

Anti-Plug Port System

Find & Keep Well Bore Center

Won't Cause Unplanned Side Tracks

Incorporated Back Flow Prevention

No Bit Required
