

CAPABILITIES STATEMENT

Superior Drilling Products, Inc. machines intricate and difficult parts for many industries. Our high tech manufacturing capabilities and expert staff are second to none. From small and intricate parts to huge tools, we can accommodate your needs.

DIFFERENTIATORS

- ✓ **Simultaneous 5-Axis Machining**
- ✓ **Complex and Large Parts**
- ✓ **Exceptional Service**

DIFFERENTIATORS

- ✓ **Simultaneous 5-Axis Machining**
Our teams are highly trained experts that live and breathe simultaneous 5-axis, high tech machining and manufacturing. They can model your project and program the machine to make it real.
- ✓ **Complex and Large Parts**
Large or small, simple or complex, we can do it. Whether you're turning a huge piece of steel or intricate small parts, we can accommodate your project.
- ✓ **Exceptional Service**
You can get it sooner than you think. If your priorities change, we change with you.

ADVANTAGEDOUS / PAST PERFORMANCE

We believe to our core that business can always be win/win. Here's just some of the companies we've collaborated with:

RECOGNITION

SDPI has been recognized as an industry leader:

- Utah Manufacturers Association - Manufacturer of the Year Award.
- World Trade Center Utah - Vanguard in International Business Award.
- Utah Patriot Partner Award (honoring and consideration of Veterans).
- Zions Bank - Speaking on Business, Top Business Award.

PATENTS

SDPI holds more than 20 patents and continues to innovate.

MATERIALS

Here are just some of the materials we are experienced in working with:

CP Titanium's, 6AL-4V Titanium, Monel K500, 4140, 4145, SC-150, 15-15HS, P550, 17-4 PH, 304, 316, 416, 303, 12114, 1018, 8630, 8620, 4330VMOD, 18-8PH, 6061, 7075

CAPABILITIES

Manufacturing

Simultaneous 5-axis machining. Up to 7 axis machines, intimately familiar with large parts (up to 157" long and 41" in diameter), experts at exotic materials, rapid material removal, prototyping, anodizing.

Design & Engineering

Modeling complex 3D parts, concept-to-production partnering, manufacturing ability analysis, virtual mechanical assembly testing, finite element analysis, fluid flow simulation, and project management.

Hot Work

PDC (Polycrystalline Diamond Compact) tool repair, brazing, hardfacing, welding, diamond grinding, cold spray application.

Any Industry

We have experience prototyping and producing parts for aerospace, medical, oil and gas, firearms, manufacturing, and mining companies.
